ABOUT ME

Hi, I'm a Full-Stack developer. The main type of development is Front-End, but I also work well with the Back-End. I am very active and positive, so I will always find my place in the team. I am constantly striving to develop and really appreciate the experience of communicating with experienced people. I like to work in a team, but at the same time I have a clear discipline and dedication.

I have worked with many different technologies throughout my career: Html, Css, Bootstrap, Tailwind, JavaScript, TypeScript, React, Redux/RTK, Vue, Node, Express, Next.js, Next.js, Ruby, Ruby on Rails, npm/yarn, WebPack, Docker, AWS, PhPMyAdmin, MySQL, PostgreSQL, Figma, Axure, PS, Miro and worked with OOP, DRY, SOLID, BEM, TDD methodologies. I know, but do not use: C++, C#, Python.

I've been programming since 2020, so I have quite a big background, but I have only a year of commercial experience. Currently, I am a Full-Stack developer at STUDINFO, a Ukrainian startup with a React / Ruby on Rails / PostgreSQL stack. In the future, I plan to hold the position of Front-End developer to better understand a specific direction! I plan to continue working with React (React Native) and start learning Angular and more responsive technologies a little bit.

EXPERIENCE

Trainee - Junior Full-Stack developer

STUDINFO

- React
- TypeScript
- Ruby on Rails
- ChakraUI
- PostgreSQL

December 2022 - Present

EDUCATION & COURSES

Software Engineer

State University of information and communication technologies

September 2022 - Present

Full-Stack dev.

Genius.Space

November 2023 - February 2024

C++ Essentials – Part 2 (Intermediate)

OpenEDG

March 2023 - May 2023

C++ Essentials – Part 1 (Basics)

OpenEDG

December 2022 - February 2023

Industry Knowledge

Responsive markup
JavaScript / TypeScript
React
REST API
Relation databases
Ruby on Rails
WordPress

My Stack

Front-End:

- HTML5 (Bootstrap5),
- CSS3 (Sass, Tailwind),
- JavaScript,
- TypeScript,
- React,
- Redux,
- Vite,
- Next.js,
- WebPack,
- Material UI / Chakra UI.

Back-End:

- Ruby,
- Ruby on Rails,
- RSpec
- Node.js,
- Nest.js,
- PostgreSQL.

Other Technical Skills

Programming languages:

C++, C#, Python and PHP (basic).

Methodology:

OOP, DRY, SOLID, TDD, BDD, BEM.

Technologies:

Git, GitHub, Docker, Miro, Figma, Axure, Adobe PS, WordPress, npm, yarn.

Languages

- Ukrainian (native),
- English (B2),
- Russian (native),
- Czech (A1).
