ABOUT ME

I'm Denys, and I'm truly passionate about creating captivating user experiences. Currently, I'm immersed in Full-Stack development at STUDINFO, where I thrive on solving complex problems using React and Ruby on Rails.

My motivation lies in my constant desire to learn and grow. While I excel in both front-end and back-end development, I'm particularly drawn to the intricacies of Front-End development. Transitioning into a dedicated Front-End role isn't just a career move for me; it's an opportunity to deepen my expertise and refine my skills in creating sleek, intuitive interfaces.

With a strong foundation in HTML5, CSS3, TypeScript, and React, I'm ready to take on new challenges and push the boundaries of what's possible in Front-End development. I'm committed to staying at the forefront of industry trends and methodologies, ensuring that I always deliver the best possible results for your team.

EXPERIENCE

Full-Stack developer

STUDINFO

During my time in a dynamic React/Ruby on Rails environment, I've tackled complex challenges, crafting responsive interfaces, and optimizing server-side processes. With expertise in integrating technologies like React, Chakra UI, and PostgreSQL, I've consistently delivered innovative solutions that surpass expectations.

Relation databases

Ruby on Rails

My Stack

Front-End:

- HTML5,
- CSS3 (Sass, Bootstrap5),
- TypeScript,
- React,
- Redux,
- Storybook,
- Tailwind + UI,
- Next,
- Material UI / Chakra UI.

Back-End:

- Ruby,
- Ruby on Rails,
- RSpec,
- PostgreSQL.

Other Technical Skills

Programming languages:

C++, C#, Python*.

Methodology:

OOP, DRY, SOLID, TDD, BDD, BEM.

Technologies:

Git, GitHub, Linux(WSL), Docker*, Miro, Figma, Axure, Adobe PS, WordPress*, npm, yarn, Vue*, Node*, Svelte*.

Languages

- Ukrainian (native),
- English (B2),
- Russian (native),
- Czech (A1).
